Query 1:- To count total number of SBs sent to RBI

select count(1) from (select /*+ PARALLEL(OPS$EXP.M_CHRBE01_MASTER,4) */ distinct
b.SB_NO,b.SB_DT,b.site_id from OPS$EXP.M_CHRBE01_MASTER b
Where LEO_DT between '01-APR-17' and '31-MAR-18');

Query 2:- To count how many we received from RBI of those SBs which we had sent to RBI

select count(1) from (
select /*+ PARALLEL(M_RBCHE03_MASTER,4) */ distinct a.SB_NO,a.SB_DT,a.site_id from
M_RBCHE03_MASTER a where exists(select /*+ PARALLEL(OPS$EXP.M_CHRBE01_MASTER,4)
*/ distinct b.SB_NO,b.SB_DT,b.site_id from OPS$EXP.M_CHRBE01_MASTER b
Where a.sb_no=b.sb_no and a.SB_DT=b.SB_DT and a.site_id=b.site_id and LEO_DT between
'01-APR-17' and '31-MAR-18'));

Subject: RBI FE realization

Dear Sir,

I prepared the below query for RBI FE realization for the year 18-19.

Query 1:- To count total number of SBs sent to RBI

select count(1) from (select distinct b.SB_NO,b.SB_DT,b.site_id from
OPS$EXP.M_CHRBE01_MASTER b
Where LEO_DT between '01-APR-18' and '31-MAR-19');

**Query 2:- To count how many we received from RBI of those SBs which we had sent
to RBI**

select count(1) from (
select distinct a.SB_NO,a.SB_DT,a.site_id from M_RBCHE03_MASTER a where exists(select
distinct b.SB_NO,b.SB_DT,b.site_id from OPS$EXP.M_CHRBE01_MASTER b
Where a.sb_no=b.sb_no and a.SB_DT=b.SB_DT and a.site_id=b.site_id and LEO_DT
between '01-APR-18' and '31-MAR-19'));

Regards,

Mritunjay
